Congratulations to the recipients of America’s Best Hospitals™ 2021

Best in the nation

The Healthgrades America’s Best Hospitals™ achievements are based on an objective review of clinical outcomes across multiple conditions and procedures, analyzing the performance of nearly 4,500 hospitals nationwide. America’s Best Hospitals deliver better outcomes than 95% of hospitals in the nation!

Outstanding patient care

If all hospitals as a group performed similarly to hospitals achieving Healthgrades America’s Best Hospitals Award:

- 26.5% lower risk of dying (Sepsis)
- 30.3% lower risk of dying (Stroke)
- 34.7% lower risk of dying (Heart failure)
- 21.7% lower risk of dying (Heart attack)
- 27.4% lower risk of dying (on average)
- 21.7% lower risk of dying (Heart attack)
- 27.4% lower risk of dying (on average)
- 30.3% lower risk of dying (Stroke)
- 34.7% lower risk of dying (Heart failure)
- 26.5% lower risk of dying (Sepsis)

Patients treated at an America’s Best Hospital have a lower risk of dying compared to patients at hospitals that did not receive the award*

America’s Best Hospitals demonstrate superior outcomes across multiple conditions and procedures compared to patients at hospitals that did not receive the award*

We applaud the recipients of the Healthgrades America’s 50, 100 and 250 Best Hospitals for their long-standing commitment to quality and superior clinical outcomes. As hospitals across the country continue to fearlessly treat patients during the time of COVID-19, it has never been more important to recognize those organizations that are delivering the highest quality care.

Dr Brad Bowman
Chief Medical Officer at Healthgrades

*Statistics are based on Healthgrades analysis of MedPAR data for years 2017 through 2019 and represent 3-year estimates for Medicare patients only.
America’s 250 Best Hospitals™ includes America’s 50 and 100 Best Hospitals.
*For treatments across 19 rated conditions and procedures where mortality is the outcome.
